Narratives

 - Color Revolution narratives proliferate – Parallels to 2011 Tahirih Square established indicating International United Front effort. – [Ongoing and Escalating]

Color Revolution

- The current domestic political situation has decomposed into a national security issue. The 2020 political cycle is being utilized to mask the extremely hostile revolutionary nature of these events. Even the violence is distraction.
- Current intelligence indicates that large scale unrest may initiate on or about Election Day to ensure an Inauguration crisis that carries on to at least January 20, 2021 and beyond. The revolutionary operational design has three key components that must be factored in:
 - First, the revolutionaries must control the media and social media communication environment.
 - Second, the revolutionaries must maintain control of a portion of the bureaucracy.
 - Finally, the Republican Party and GOP Establishment must be under the positive control of the Revolutionary narrative and remain passive. If the revolutionaries can succeed in controlling these three components of their operation, they can be successful.
- Color revolutions utilize information warfare tactics to create crisis situations in which institutional leaders are placed under tremendous political pressure to support the revolutionary objective.
- The control of the media and other communication is used by revolutionaries or their supporters to amplify crisis (i.e.; election fraud) solutions selected by the revolutionaries (i.e.; remove Trump).
- These narratives are amplified by the media to silence and control GOP opponents and to compel action by the bureaucrats.
- The history of sabotage and subversion directed against the campaign, transition, and administration during the first term should serve as warning.
- Numerous senior officials of the Democrat Party are openly calling for revolution and intend to fabricate a Constitutional crisis around the election and parallel street mobilization in furtherance of their efforts.
- This plan includes the utilization of various revolutionary actors that have been observed conducting operational and informational preparation of the environment for the past several months.
- There are 2 key vulnerabilities to color revolutions. Prior knowledge and united opposition. **ACTIONS:**
 - 1.) The public and the institutional leaders must be made aware of these efforts in a coherent manner.
 - 2.) MAGA (Republicans and all Americans) must unite to oppose their agenda.

Current Responses

- The Counter-state may have sufficient control of national level leadership and institutions – by commission and omission - making it unclear whether they can be relied on in the event of escalating violence.
- Mass popular flash rallies with large attendance across the nation.
- President Trump engages in large-scale rallies with high volume turnout.
- President Trump issues sweeping order stripping job protections from tens of thousands of federal employees
- Great Barrington Declaration challenges politicization of C19 responses and constitute non-scientific solutions in the name of science.
- Supreme Court continues to hear election challenges.
- Unclear if there is any appreciation of the scope of ongoing ideological subversion and its effect on driving Deep State (Counter-State) activities.
- The opposition party remains decisively aligned with mass line movement.
- Completely inadequate response to ongoing and escalating Social Media censorship that is underinclusive to the equities involved, but inline with the narratives they are tasked with supporting.

Indications & Warning (I&W)

- Ideological Subversion/Open Strategic Incomprehension – in the face of public pressure and awareness relating to the Michigan Plot, the FBI identified the plotters in White Supremacists terms in the face of ANTIFA and Far-Left indicators that demonstrably identified them otherwise.
- The Republican establishment, including the White House, enforces mass line enforcement narratives (simply by following them)
- Police Morale, Democrat Voter Support, Institutional Support for Democrat Agenda, etc.
- National Security and Law Enforcement continues to align communications and activities to unfolding mass line narratives.
- Indicators of second round of riots that may include escalated violence as part of transition to and through Election Day.
 - Left treating the election as a phase line to a continuing operation.
- **Voter Fraud Organized at the Counter-State level.**
- Constitutional principles, the rule of law, and incendiary political rhetoric remain unchallenged
- Targeted assassination of law enforcement and political opposition
- Pelosi 25th Amendment positioning to stage friendly coup in the event of Biden victory
- No arrests of accessories/conspirators to the Portland assassination of opposition
- Attacks on Critical Infrastructure (e.g.: Emergency Managements System Used by POTUS, 911 services or powerline transmission attacks)
- **Post-Election Social Media Censorship.**
- Open Planning and Open Communication – Continues to escalate.

What to DO: *Are You Safe? A Guide to Protecting Your Family from the Coming Insurrection and Violence*

Do you worry that riots and mob violence could occur in your peaceful neighborhood? **Are you concerned about your family's safety?** Especially now, with fewer police available or restricted from emergency response, many families are apprehensive. **What will happen if dangerous mobs and looters arrive on your doorstep.**

This book is a guide for all that are concerned with the chaos and violence occurring on the streets of America, regardless of your political outlook. Though much of the violence clearly has political intent and purpose, that is outside of our scope. **We are focused on helping you keep your family and neighborhood safe.**

Our goal – to explain the violence, who is perpetrating it, and how to avoid becoming a victim, sounds simple enough. However, there is considerable information available, and much of it is opinion disguised as the truth. To help with this task, the writers consulted with experienced and proven analysts on intelligence, crime, politics, revolutionary warfare, history, survival, trauma medicine, and child psychology. They did a remarkable job separating fact from perception, assessing the inexplicable, and delivering it concisely. It serves well as a **handbook for concerned American families.**
